

PhD Program in Computer Science

<http://www.iiitd.ac.in/phd2011.php>

Focused Research Areas

Emerging Architecture and Systems Design

Image Analysis and Biometrics

Information Security

Information Management and Data Analytics

Mobile and Ubiquitous Computing

Software Engineering

Theoretical Computer Science

Collaborators

Coventry University, UK

Hong Kong Polytechnic University, Hong Kong

Max-Planck Institute of Comp. Sc., Germany

University of Aizu, Japan

University of Luxemburg

University of Mangland, USA

University of Notre Dame, USA

West Virginia University, USA

IBM India Research Lab

Microsoft Research Bangalore

Nokia Research Bangalore

....more on the website

About IIIT-Delhi

IIIT-Delhi is a research focused institute established by Government of NCT, Delhi in 2008. IIIT-Delhi aims to be a leading IT Institute with global linkages.

PhD Program

The goal of PhD programs in IIIT-Delhi is to train students to become top class researchers who can be part of the global research ecosystem, and contribute to research organizations and research universities across the world. Some key aspects of this career opportunity are:

- Based on the best practice model in top universities, worldwide, fresh B.Tech. graduates with research aptitude are strongly encouraged to apply.
- Strong faculty groups supervise the students and provide international exposure.
- Being a focused program, it is expected that a student should be able to finish the PhD within 4 years.
- Attractive compensation: the stipend in first year is Rs 20,000 per month; 2nd to 4th year it can be upto Rs 25,000 per month, based on performance.
- IIIT-Delhi will provide financial support to present papers in reputed national and international conferences.
- Tuition fee of Rs. 1 Lakh per year will be waived for full time PhD students with teaching or research assistantship.

Collaborative PhD Program

As part of its PhD program, IIIT-Delhi has successfully started a "focused collaborative PhD program" with selected partner groups/institutes across the world. Other features of collaborative PhD program are:

- A student is admitted to PhD program at IIIT-Delhi, from where he/she will get the degree. Interview for admission may be done jointly by IIIT-Delhi and the partner group.
- At least two supervisors: main supervisor will be from IIIT-Delhi and may have an external co-supervisor from the partner Institution.
- After completing the course work and starting the research, the student may spend 3 months to 1 year with the co-supervisor at the partner group/institution.

Eligibility and Questions

More details about the program, eligibility criteria, and admission process are available at <http://www.iiitd.ac.in/phd2011.php>. For any further queries, feel free to contact at phd-admissions@iiitd.ac.in

For applying:

- Fill online application form available on website
- Print the duly filled form, attach a demand draft of Rs. 350 (nonrefundable application processing fee) and post it to the following address:

PhD Admission Incharge
IIIT-Delhi,
NSIT Campus,
3rd Floor Library Building
Sector 3, Dwarka
New Delhi - 110078

Important Dates for 2011

Last Date to receive applications: April 4

Screening results based on the application: April 7

Test/Interview at IIIT-D: April 23

Results on website: April 25

Semester Starts: 1st week of August (Tentative)

Less than 50 earn PhD (CS) in India every year.
