# Mtech & PhD Induction '22

As the incoming batch of MTechs and PhDs gear toward starting a new chapter in their life, IIT Delhi brought all of us the MTech/PhD Induction Program 2022. And for the first time in a while, it was completely offline! The Induction program aimed to introduce first-year students to the culture and environment of the institute. It was the perfect opportunity to interact with the college fraternity and fellow batchmates, who will be a part of their journey at this institute.

Spanning three days and including lots of introductory talks by faculty and industry leaders, the programme was sure to kick off one of the most promising and rewarding college journeys ever. Best wishes for the upcoming batch!
