PE &EO

Scope of Works:

We are now planning to integrate this system at Gate Nos. 1, 3, 4, and 6 to enhance security at the main campus entry points.

Controller Function: Access controllers will be configured at the gates so that when a registered student or staff member uses their ID card, the controller triggers the required function (e.g., Lights, Alarm etc.)

Photo Verification by Security: The photograph of the cardholder will be displayed in real time on a monitor near the guard cabin at the time of swipe, enabling quick identity verification.

Display Monitor for Security: A monitor /system will be installed and integrated with the access control system at each gate to display real-time card swipe details including Name, ID number, and Photograph.

Computer system /Display to be provided by IIITD.
